

June 2014

+Pay will shortly include PayPal as standard!

We are very pleased to announce that we will soon be providing PayPal as standard to all +Pay schools.

PayPal is used by over 75% of the UK population, young or old and recognized as a safe, secure way to pay. As **PayPal's first school payments partner**, PayPal via ParentMail will offer parents a simpler, faster checkout process, requiring just a username and password to make payment.

Over the next few weeks PayPal will be added to the +Pay checkout page alongside Credit/Debit cards. Payments made using PayPal will be clearly identifiable on your ParentMail reports, parent/pupil transaction detail pages and your settlement statements will clearly show any PayPal charges.

Further great news is that due to the number of schools using +Pay, we have negotiated PayPal's lowest transaction rate of just 1.4% +20p for all transactions.

We'll be back in touch very shortly to let you know when PayPal will be live.
